FACTS AND FANCIES.

Courtesy is a word of fine import horough gentleman. It is animated by gentle and kindly spirit, which as it omes from the heart, so it always goes to 🔭 🤛 the heart. It is the outward form of such a spirit—the flower and aroma that from those twin roots. When these are united there is a complete courtesy—one of the most gracious and winning things that delight human eyes

and charm human hearts.

Intrue words are the sweetest to hear; little charlties for furthest and stay longest on the wing; little lakes are the stillest, little hearts are the fordest; little farms the best tilled; little books the most read, and little songs are the dearest loved.

And when nature would est loved. - And when nature would make anything especially rare and beautiful, she makes it little—little pearls, little liamonds, little dew. Agar's is a mode. prayer, yet it is but a little one, and the ourden at the petition is but for little, The sermon on the mount was little. Life is made up of littles; death is what remains of them all. Day is made up of ttle beams, and night is glorious with ittle stars.

The Okefemkee Swamp. The surveying party sent out to survey says that the value of the collection does miles in circumference, and, with the A Sweet Boon of a Brother. not begin to be expressed by its original sinuosities, one hundred and eighty miles around. This vast formation, thirty miles lies in the southeastern part of Georgia, but partly in north Florida. Here is the Suwanee river, made famous by the negro melody of the "Old Folks at Home." t traverses a large section of upper Florida, is bordered with valuable eypress and other timber, and empties into the gulf at a point eighteen miles above Cedar Keys. Okefenokee swamp was for generations a retuge for runaway slaves. Indians have lived there until recently, cultivating gardens; and in the depths of the jungles and forests are thousands of bears, and a great many Florida "tigers"—the cougar, or American panther. One curious experience of the surveying party was to find themselves at one time, while in the midst of a great swamp, suffering for water. The discovery of a lot of mounds, "probably built by a race of men existing before the Indians," is

as exposed to the air. They could see the low, black island in the center covered with low bushes, and long time to kill ticks is just after shearing, and will make six hundred an hour, no the sheep are growing poor. The true off the table on to the window-sill, and long time to kill ticks is just after shearing, ran under the house to conceal its Widsky. glee, but for a long time the Mexican round or square. say a week or ten days, when the ticks emotion.
